Roles & Responsibilities: Sr. Developer, attend client call to analyze requirements, Develop Business domain for module separation in large scale application, Guide development team for assigned work & knowledge transfer for functional understanding.

Duration / Team Size: 12 Months / 6 Members

Environment: ASP.Net MVC 5, Web API 2.2, Angular JS, HTML/CSS, Bootstrap, MS SQL Server 2012

Other Projects:

- Access Card Migration Tool [ICS Admin]
- Billing System [iVault, US]
- Restaurant Operational Management System [Smart ROMS]
- Total Health Care Support

Domain Knowledge:

- Financial Domain
- Insurance Domain
- Point of Sale Systems
- Incident Control System

- Web Based Management Information System
- Medical Domain
- Content Management System

SIGNIFICANT HIGHLIGHTS

At RADIXWEB:

- As a technical lead, I went **on-site** (Australia) for technical requirement gathering for 3 months, recently.
- Worked as technical architect and solution provider in multiple projects simultaneously.
- Got double promotion with extra ordinary performance in work and appraised to higher designation.
- Actively participated in extra curriculum activity (RPL Cricket Tournament) and won “Man of the Series” award.

At INTECH:

- Got **client appreciation** on implementing exemplary performances towards module development (independently) which involved highly complex business logic with new technology.
- Initiated in-house software for Access Card in/out Management System; which required manual management of daily employee statistics.

ACADEMIC CREDENTIALS

2007 – 2011 Bachelors in Engineering – Computer Engineering from Gandhinagar Institute of Technology, Gujarat University. *Secured 67.85 with Distinction*
